HARK FROM THE TOMBS!

THE Democratic Textbook for 1914 drags from their graves NOTICE OF REGISTRATION FOR GENERAL ELECTION. some issues that ought to be left dead and buried. They will do no good to those who exhume them for reasons of personal pride State of Nevada, County of Nye-sa rather than with regard to the truth or the good of the party or

the country. On page 69 appears the following:

"For the first time since the war the government asserts its district Township of Tonopah, prior to the general election to be held on the third day of November, A. D. 1914, least important, for the first time since the war the power of Wall and the country of Nye, will expire at a polynomial of the power of the country of Nye, will expire at a polynomial of the country of th street, over the political as well as the financial world, has been of October, A. D. 1914.

HARRY DUNSKATH.

These misstatements are made over the signature of Mr. Bryan. It might be thought that he would be willing to let the people forget that they were under the necessity of rejecting thrice the well known errors which still survive in the minds of Mr. Bryan and of Representative Lindbergh. In the same year in which this textbook appears the gentleman from Minnesota is not able to see why the government does not print money enough to cure all the troubles of the country. That happy thought actually is embodied in a pending project of law, as well as asserted as a sovereign right by the secretary of state.

Whether the reference by the secretary is to the emergency notes or to the notes to be issued under the new banking system makes little difference, presumably. It is true that they are printed by the government, as the present national bank notes are. But they are issued by the banks, the government having no control over their volume, either by issue or recall. It cannot be necessary to insist upon the difference between asset currency and fiat money with anybody except Mr. Bryan and those whom he would mislead

The statement that the power of Wall street is broken comes with ill grace at a time when the country is relying upon Wall street for help and when Wall street is patriotically responding. although crippled so far as those of Mr. Bryan's way of thinking could accomplish it. The events of this week emphasize the unwisdom of reducing the Federal Reserve bank of the New York district to proportions unworthy of it. Also the events of these days illustrate the futility of the attempt. The efforts of Wall street in finaneing the country are not confined to the geographical limits of its Federal Reserve district. The territory tributary to its financial jurisdiction is co-operating with Wall street, whose leadership is recognized now, as always.

The thing which Mr. Bryan asserts is not so. It would be worse COLD RUNNING WATER IN EACH for the country if it were so. Mr. Bryan does the country no good ROOM, Rooms with or without by reviving these issues.

GRAFT OF \$15,000.

WHEN the textile workers of Lawrence, Mass., were at grips with their employers and there was much suffering among the unfortunate families of the strikers, the hearts of the charitabiy inclined were opened and contributions were made to a big relief When the trouble was settled those who handled the so called "defense fund" failed to make a satisfactory accounting and the matter was finally taken into the courts. The Industrial Workers of the World leaders, who not only precipitated the strike, but took charge of all matters in connection therewith, are accused of diverting \$15,000 to their own use, and the supreme court of Massachusetts has ordered them to return that amount to the court within ten days. The I. W. W. has done more damage to the cause of labor in the last few years than all other influences combined and no tears will be shed by true union men if the Lawrence rioters are given jail sentences for contempt

The resignation of Carranza as first chief of the constitutionalists was not expected, but Villa expects to do some plural voting on that subject when he gets a chance.

If Carranza will let Villa have his way Villa is willing that Carranza should be named honorary admiral of the Mexican navy.

A prevalent form of fiction is in the small number of killed and Up-to-Date Motion Pictures wounded issued officially by the various European governments.

The European governments ought to quit talking about who caused the war and begin to talk about who will end it.

There is one advantage in the belligerents' present deadlock; we do not have to learn a new map every morning.

Peace in Mexico would be a most painful event to those whose piffling partisanship dominates their patriotism.
